### GENUINE GEAR FOR SPECIALIZED FIRE FIGHTING OPERATIONS

PROTECTION, COMFORT AND DURABILITY

FireGear™ Proximity Gear is designed to provide added protection from high levels of radiant heat associated with flammable liquid fires. You get the legendary FireGear fit: cut full where you need it, with no excess material or fussy detail. FireGear's proprietary 3-piece "arm-up" design minimizes binding in the shoulders, so at that critical moment, you get every inch of reach you need. And it cuts down on coat rise to keep your midriff and lower back protected.

**Outer Shell:**  
7.0 osy aluminized PBI/Kevlar®  
or  
8.0 osy aluminized Kevlar® knit

**Moisture Barrier:**  
W.L. Gore CROSSTECH®  
or  
W.L. Gore RT 7100™

**Thermal Barrier:**  
Choice of 8 thermal liners

# ALERT DISASTER CONTROL

Global Emergency Response and Integrated Risk Management Solutions

## Proximity Coat Features

- Fully integrated thermal liner resulting in all-round protection at shell/liner interface
- Front closure system that reduces bulk and mass
- Built-in shoulder padding to cushion SCBA strap for greater comfort and improved thermal protection
- Durable, and waterproof neoprene-lined cargo pockets and optional radio pocket
- "CEP" (Contoured Elbow Pleat) - perfectly, engineered elbow pleat integrated in the, outer, shell, for increased comfort and mobility
- High quality Nomex®/spandex wristlets
- Breathable CROSSTECH® fabric and Nomex® 2-layer wristlet waterwells
- Reinforced cuffs: Choice of outer shell, leather or Ara-Shield®
- Back hem snap-tab prevents gapping between liner and outer shell
- Easy fold-down collar design
- Integrated collar and throat tab: Easy to close and eliminates gapping
- Integrated "Wash Flippers": Easily fold over to prevent damage to moisture barrier during laundering
- Additional padding and insulation available with FireGear TES™ and FireGear Combo™ thermal enhancement options

## Proximity Pant Features

- Low Rise Front/High Rise Back: Contoured low rise cut minimizes bunching and binding, and distributes weight evenly over hips
- "V-Crotch" design eliminates bunching in the crotch area
- Fully integrated fly, features form-fitting hook & loop for perfect seal and greater overlap for better protection
- "EKP" (Ergonomic Knee Pleat) -contoured knee with expansion fold integrated in the thermal liner increasing comfort and mobility
- Fully integrated waistband features CROSSTECH® or RT-7100™ moisture barrier for complete overlap, maximum breathability and comfort
- Reinforced cuffs: Choice of outer shell leather or Ara-Shield®
- Field-replaceable knee system for maximized cost savings and longer gear life (optional)

## Certified Protection

- FireGear Structural Gear certified to NFPA 1971, CGSB and BNQ standards, current edition.

Whichever options you choose,  
you get the legendary FireGear fit.

Cut full where you need it, with no  
excess material or fussy detail.

Right from day one, FireGear moves  
the way you move, giving you that  
rough-and ready, broken-in feel.

Like it's seen its share of action  
and it's ready to roll. The way you  
expect your turnout gear to feel.
