Global Emergency Response and Integrated Risk Management Solutions

Respiratory Protection Systems

Self Contained Breathing Apparatus Firefighting Air-Pak

Leading edge technology and reliable time tested performance are just two of the many reasons the Scott Air-Pak Fifty SCBA is the choice of fire and industrial professionals worldwide.

SCOTT Air-Pak® Fifty™ 2.2/3.0/4.5 SCBA

Features

- Cutting edge respiratory protection for first responders, municipal and industrial firefighters
- Time-tested record of reliable performance and rugged dependability
- Redundant safeguards promote an added margin of safety
- Tactile feel end of service indicator
- Includes Scott's workhorse regulator, the E-Z Flo®
- Available in 2216, 3000 and 4500 psi operating pressures
- Cylinder duration available in 30, 45, and 60 minutes
- AV-2000 allows for interface with Scott's full range of communication devices
- A lightweight, ergonomically designed harness system
- Places bulk of weight on hips instead of the shoulders
- Harness incorporates quick release take-up with parachute style hardware
- Options include EBSS, Quick Connect E-Z Flo Regulator, Quick Charge, Airline pigtail, and integrated PASS

Accessories

- Pak-Alert SE®
- Dual EBSS
- SCBA Hard Carrying Case
- Extended Duration Airline
- SCBA Soft Carrying Case
- SEMS™

Leading edge technology and reliable time tested performance are just two of the many reasons the Scott Air-Pak NxG2 SCBA will be the choice of fire and industrial professionals worldwide.

SCOTT Air-Pak® NxG2™ SCBA

Features

- Cutting edge respiratory protection for first responders, municipal and industrial firefighters
- Time-tested record of reliable performance and rugged dependability
- Redundant safeguards promote an added margin of safety
- Tactile feel end of service indicator
- Includes Scott's new regulator, the E-Z Flo® II
- Available in 2216 and 4500 psi operating pressures
- Cylinder duration available in 30, 45, and 60 minutes
- TOP DOWN CONVERTIBILITY with AV-3000™ face piece
- AV-3000 allows for interface with Scott's full range of communication devices
- A lightweight, ergonomically designed harness system
- Places bulk of weight on hips instead of the shoulders
- Harness incorporates quick release take-up with parachute style hardware
- Options include Dual EBSS, Quick Connect Regulator
- Integrated PASS, and SEMS

ALERT DISASTER CONTROL

Global Emergency Response and Integrated Risk Management Solutions

Self Contained Breathing Apparatus Non-Firefighting / Industrial SCBA

The Industrial SCBA is designed for quick and easy use, the ISCBA provides superior IDLH-level respiratory protection in non-fire related environments. The ISCBA also accommodates a number of optional components that are easily interchangeable.

SCOTT Industrial SCBA

Features

- Ideal supplied-air protection in non-fire related environments that are immediately dangerous to life or health (IDLH)
- Simple, dependable single stage pressure reducer
- Clear, recognizable, audible alarm
- Ergonomic back frame design that shifts the weight from the shoulders to the hips promoting greater user acceptance
- Harness available in Kevlar® or Nylon
- NIOSH approved with Scott's AV-2000®, Scott-O-Vista® and Weld-O-Vista™ full face pieces
- AV-2000 face piece features
- Available in 2216 and 4000 psi cylinders
- E-Z Flo® regulator with Modulair™ quick disconnect allows for personal issue regulators that can also be used with Scott's Ska-Pak® Plus and E-Z Airline® respirators.
- Optional dual port pressure reducer for airline hose connection up to 300 feet (91 meters) away from the remote air source.

Accessories

- Cylinders
- SCBA Hard Carrying Case
- AV-2000® Face piece

Respiratory Protection Systems

Self Contained Breathing Apparatus Non-Firefighting / Industrial SCBA

The C100 is the cost-effective and OSHA compliant solution for industrial respiratory protection. The C100 Industrial SCBA offers ideal supplied air protection in non-fire related environments that are or may become IDLH.

SCOTT C100 SCBA

Features

- Simple, dependable fail-safe spring-loaded piston single stage pressure reducer
- Clear and recognizable aspirating whistle alarm alerts user when 25% of cylinder volume has been reached
- Injection molded resin back-frame with fiber reinforced insert is lightweight and provides flexibility for comfort and durability
- Harness is flame retardant polyester with a Kevlar- cylinder retention strap with cam latch
- Removable lumbar pad is nylon over closed cell foam and is standard on the SCBA
- Mini-regulator is first breath activated with non-locking bypass and reset button air-saver for donning
- Mini-regulator is mounted on right side of face piece to provide user with full range of motion and uninterrupted field of vision
- Available with 30 minute 2216 psig aluminum cylinder
- Available with neoprene face pieces in Small/Medium and Medium/Large with either 5-point EPDM rubber head harness or polyester head harness

Accessories

- Cylinders
- Multi-Wash™
- Lens Covers
- SCBA Hard Carry Case

Respiratory Protection Systems

SABRE CONTOUR

Sabre Contour is an award winning range of self-contained breathing apparatus that has been designed to provide exceptional levels of performance and comfort, whilst providing unsurpassed reliability in some of the most extreme environments. The ultra-compact Tempest demand valve used on Sabre breathing apparatus features a unique, servo-assisted, mechanism that features first breath actuation and a bypass.

Sabre pneumatic systems are designed to provide simple maintenance with minimal parts replacement, thus reducing through-life costs. Attachments are available to provide airline, decontamination and rescue-mask capability.

The lightweight, composite backplate is available with a range of harnesses and materials to suit virtually every apparatus configuration and application, from single to twin, or even twin-cylinder parcel.

Sabre Contour can be used with the traditional range of PanaSeal and PanaVisor face masks, or the Vision 3 range of masks featuring a panoramic visor for optimum clarity and peripheral vision.

Masks are also available for use with some integrated helmet systems.

SABRE CENTURION

The Sabre Centurion SCBA set the target for performance, reliability and ease of maintainance.

The proven pneumatics system combined with the robust, stainless steel backplate provides unprecedented levels of reliability in some of the harshest environments. Centurion is available with a full range of options to meet all operational requirements.

Used worldwide by hundreds of thousands of firefighters and defence customers, the Sabre Centurion is proven to be the SCBA by which all others are measured.
